FOR IMMEDIATE RELEASE

October 13, 2010

David Kamp speaks at 48th International Making Cities Livable Conference

New York, NY – October 13, 2010 – David Kamp, FASLA, LF and Principal of Dirtworks, PC will speak at the 48th International Making Cities Livable Conference on October 19, 2010 in Charleston, SC. The conference theme for this year is “True Urbanism: Planning Healthy & Child-Friendly Communities.” The conference seeks to promote a dialogue among a diverse group of professionals and practitioners such as elected officials, practicing planners and landscape architects seeking fresh ideas, practical solutions and its applicability to the urban environment.

David Kamp will speak on “Nature in the Urban Environment: Weaving together Education, Ecology and Community”, where the landscape of education is redefined to one that motivates students to learn and connect with their community and the natural world. The presentation focuses on how can education delivery become more student, environmental and community responsive by presenting examples that weave the natural environment within the academic curriculum, reinforcing the school’s identity, supporting collegiality, and engendering community / civic involvement.

About Dirtworks, PC

Dirtworks, PC (www.dirtworks.us) is an internationally recognized and award-winning landscape architecture firm. Its designs enhance the restorative quality of the natural environment. The firm, founded in 1995, provides clients with the creativity and technical knowledge essential to project design and site planning. Dirtworks, PC provides a full range of professional services with a staff of technically trained and design-oriented landscape architects.

About Making Cities Livable

The purpose of the Making Cities Livable movement (<http://www.livablecities.org>) is to enhance the well-being of inhabitants of cities and towns, strengthen community, improve social and physical health, and increase civic engagement by reshaping the built environment of our cities, suburbs and towns.
