FOR IMMEDIATE RELEASE

April 5, 2011

**Dirtworks, PC receives 2011 BSLA Honor Award in
College and University Design**

New York, NY – April 5, 2011 – Dirtworks, PC received one of 2 Honor Awards in College and University Design from the Boston Chapter of the American Society of Landscape Architects (BSLA). The Award is for the Courtyard & Outdoor Learning Environment for the Natural Sciences at Keene State College in Keene, New Hampshire.

The Natural Sciences Courtyard at Keene State College redefines the landscape of education — motivating students to think in the greater context, making them more acutely aware of their surroundings, their place in the community and in the natural world. Enclosed on four sides by a dynamic three-story brick and glass building, the courtyard is aesthetically pleasing, functional, and responsive to the college’s commitment to service learning. Nature is more accessible, more exciting and real to both students and community members as they enjoy the serendipity of discovery in this intellectually engaging, sensory rich garden. It is a place for education, relaxation, reflection and where kids find science “cool.”

About Dirtworks, PC

Dirtworks, PC (www.dirtworks.us) is an internationally recognized and award-winning landscape architecture firm. Its designs enhance the restorative quality of the natural environment. The firm, founded in 1995 by David Kamp, FASLA, LF, provides clients with the creativity and technical knowledge essential to project design and site planning. Dirtworks, PC provides a full range of professional services with a staff of technically trained and design-oriented landscape architects.

About the BSLA

The Boston Society of Landscape Architects (www.bslaweb.org/awards) is a chapter of the national organization the American Society of Landscape Architects (ASLA). The chapter consists of Landscape Architects in Massachusetts, New Hampshire, and Maine.
